STEFAN BINDER

Senior Full Stack Engineer

+43 676 / 97 97 205 | stefan.binder89@gmail.com

Highly versatile Senior Full Stack Engineer focused on defining future-proof systems, with a recent high focus on Frontend development. I drive high-performing teams by balancing deep technical ownership with guidance on best practices and modular code structure. A curious all-rounder committed to continuous learning and platform excellence.

WORK EXPERIENCE

CHAPTER LEAD & SENIOR FRONTEND ENGINEER
@XXXLDigital
12/2021 – Today

- **Defined the strategic direction** for the frontend architecture, including implementing Server-Side Rendering (SSR) and applying Domain-Driven Design (DDD) and NX mono repository principles.
- **Drove platform reliability and efficiency** by managing DevOps tasks, including Kubernetes, ArgoCD, Argo Workflows, Istio, Cloudflare configuration, and leveraging Dynatrace for observability.
- **Founded and Initiated** the Kosmos **Design System team**, responsible for defining requirements and the technical direction for the framework-agnostic component library.
- **Mentored developers** and fostered continuous improvement by conducting regular 1:1s and identifying growth opportunities within the team.

SENIOR FRONTEND ENGINEER
@XXXLDigital
10/2019 – 11/2021

- **Led** key e-commerce feature implementations as the Technical Project Lead for the Timendo consultancy reservation tool, the Transporter reservation tool, and the new Order Status implementation.
- **Partnered** with Product Owners and stakeholders to engineer technical requirements and collaboratively plan project roadmaps.
- **Enhanced** the e-commerce setup through customization and development across the Frontend, BFF, and Hydra Design System.

OWNER & FULL STACK ENGINEER
@SpirIT e.U.
07/2015 – 09/2019

- Managed all facets of business operations, including customer acquisition, tax & accounting, and financial management.
- Delivered full-lifecycle project execution, transitioning projects from requirement analysis over agile programming to maintenance.
- Architected and Developed the Wooter e-commerce platform (React Frontend) for ordering sport apparel and managing sports leagues (schedule, statistics, team/player).
- Launched and maintained the project myStudentjob, a student job platform implemented with AngularJS and Laravel.

WEB DEVELOPER *09/2012 – 05/2015*
@Gentics Software GmbH

- Directed Intranet development projects, serving as the Project Manager for Erste Bank's implementation.
- Customized and Enhanced Gentics products, including ECMS Content.Node, Java Web Portal.Node, and the JS wysiwyg Editor Aloha.
- Developed a Content-Importer into ECMS via a NodeJS application and a Social Media Wall PHP application.

WEB DEVELOPER & "DESIGNER" *01/2012 – 12/2013*
@HC-Media

Executed small to medium-sized web projects utilizing various CMS platforms (Wordpress, Joomla, Typo3) and WooCommerce.

EDUCATION

Bachelor Of Science in Engineering (BSc), FH Technikum Wien 09/2010 – 06/2013
Business Informatics (extra occupational)

Höhere Lehranstalt für Berufstätige, Spengergasse 09/2008 – 06/2010
Software Engineering (extra occupational)

Fachschule für EDV, Spengergasse 09/2003 – 07/2007
Network Engineering

CERTIFICATION'S

Associate Cloud Engineer: Google Cloud Certified 01/2026

SKILLS

Software Architecture:
Microservices, Domain-Driven Design, NX Mono Repo
Frontend Development:
ReactJS, ES6, TypeScript, React Native, NextJS, React Router V7, SCSS, Tailwind
Backend Development:
NodeJS, Python, GOLang
Platform & DevOps:
GCP, Kubernetes, Istio, Cloudflare, Dynatrace, ArgoCD & Argo Rollouts, GitHub Actions
Databases:
PostgreSQL, MongoDB, Redis
API, GraphQL & BFF:
API-first, REST, ApolloJS GraphQL, GoLang gqlgen Server
CMS & Tooling:
Wordpress, Typo3, Joomla, Shopify, Gentics Content.Node, Vite, Webpack, GitHub
Design Systems:
Atomic Design, Design Token Principles, Amazon Style Dictionary

LANGUAGES

- **German**
